## LOG IN

The hybrid platform is available on:

<https://game.hvetgame.eu>

Please **log in using the credentials** your teacher has provided.

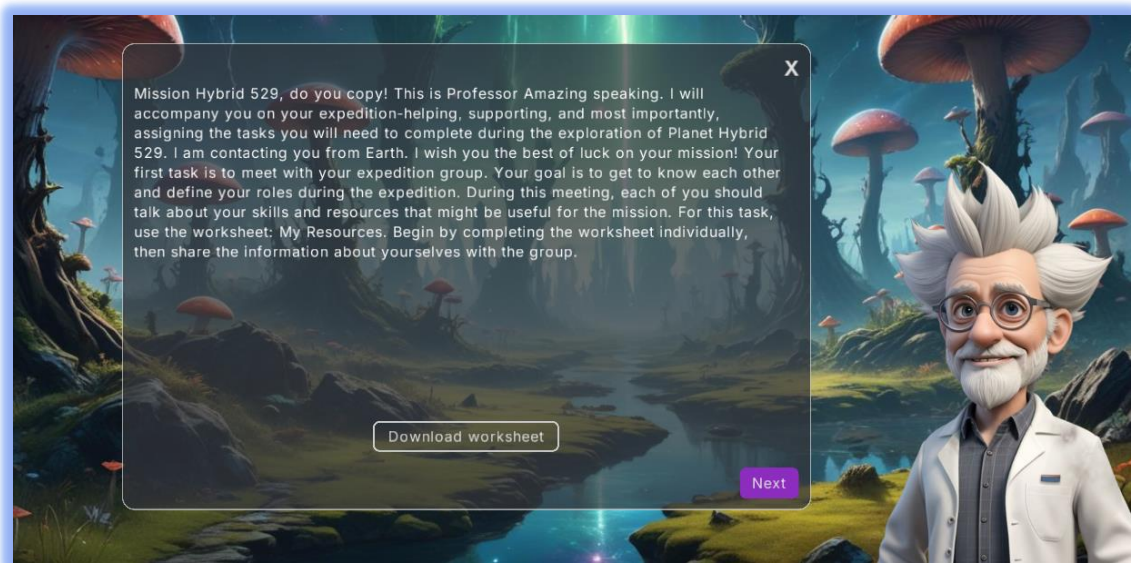

## YOUR ADVENTURE'S ENVIRONMENT

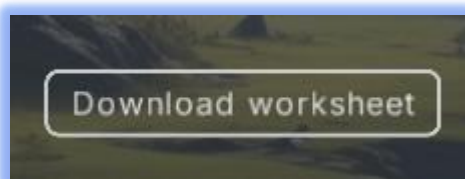

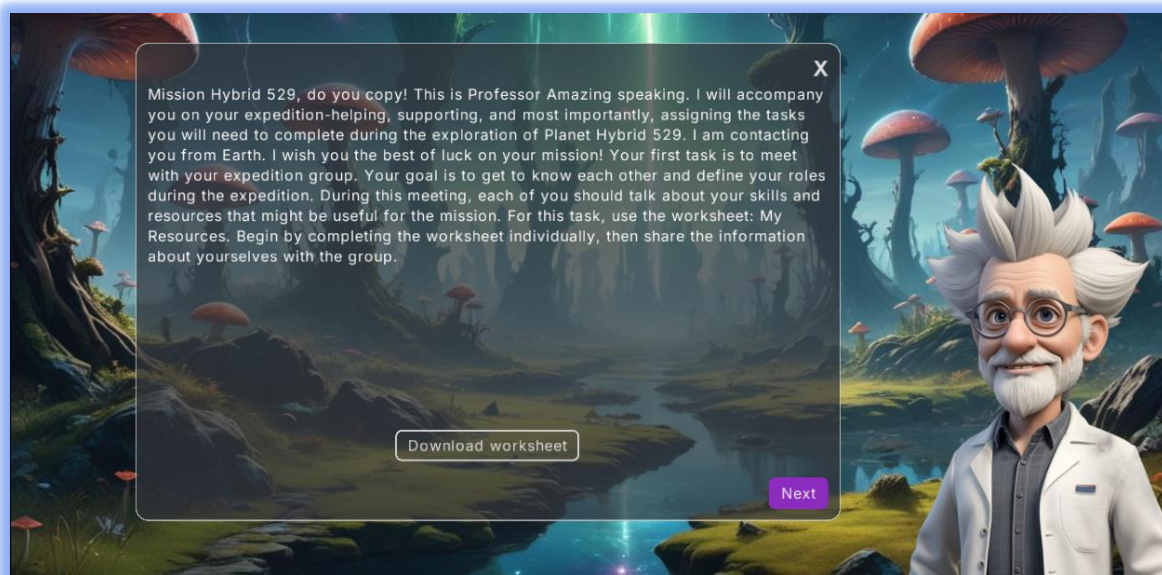

During your hybrid adventure you will be asked to complete tasks. For each task completed, you will gain a badge shown on the left side of the screen.

Each task will require different steps and activities to completed.

Every time you complete a task, you will proceed in your adventure and the next planet part/environment will be revealed.

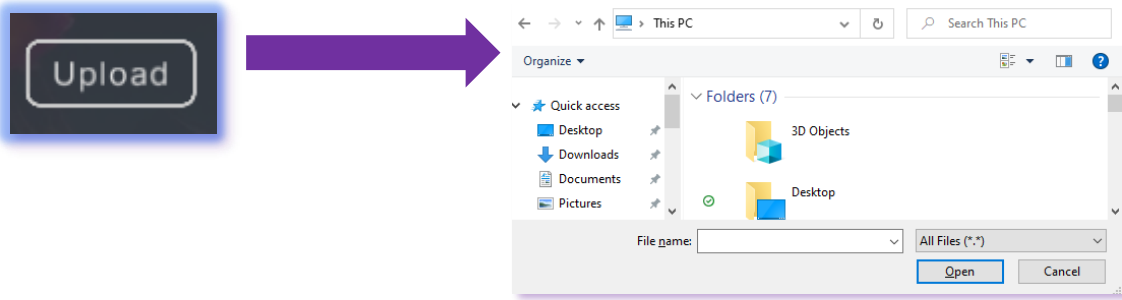

Some activities might need you to watch a video or download a worksheet.

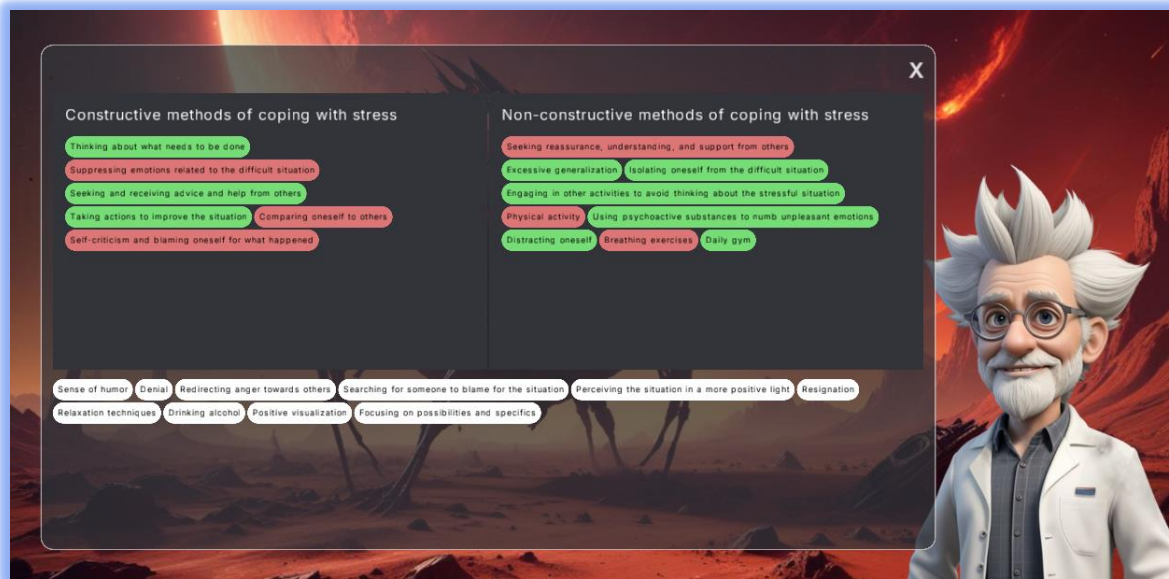

To upload a file, click on the upload button and select a file from your device. Press ok to begin uploading.

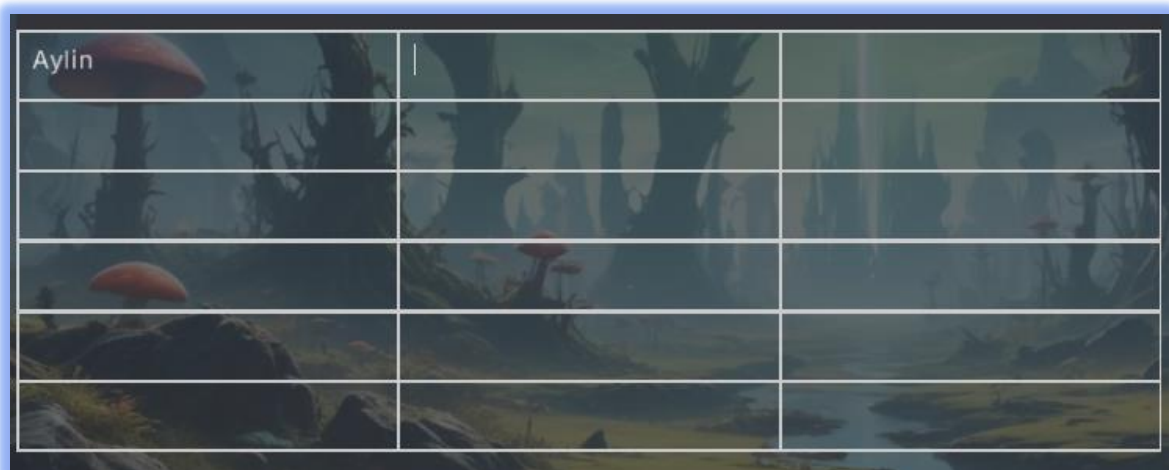

Some tasks require you to drag and drop answers.

For tasks that include tables, you can enter your answers or upload a photo or file of your completed worksheet.

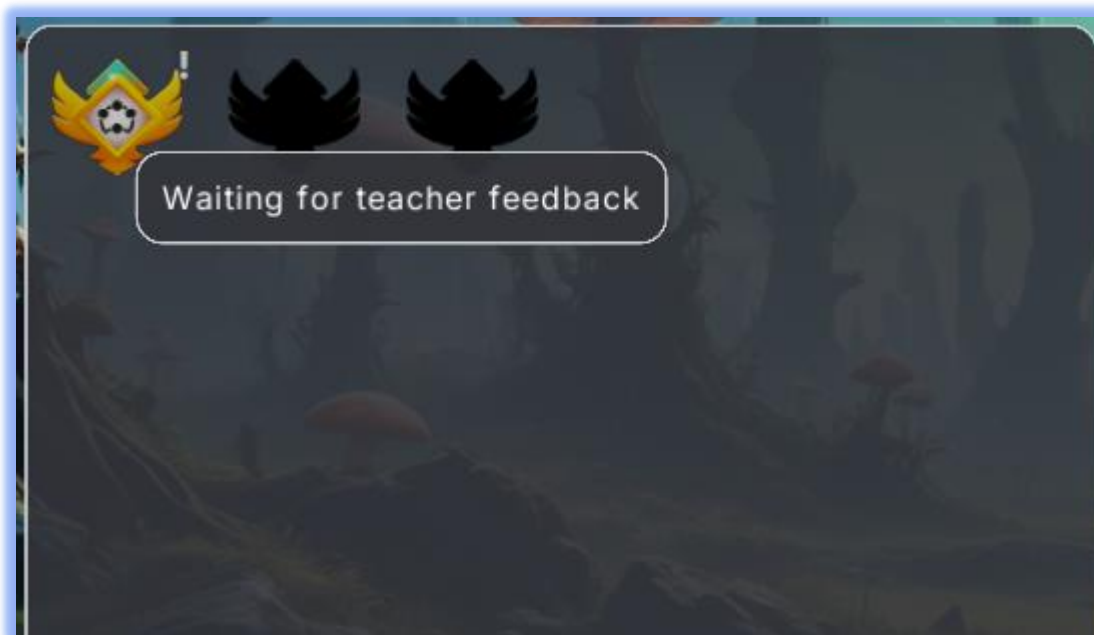

## COMPLETING TASKS

During a task, you will be asked to complete different activities/steps. Each step may include text, video, question, file download, file upload, table input, or drag and drop quiz.

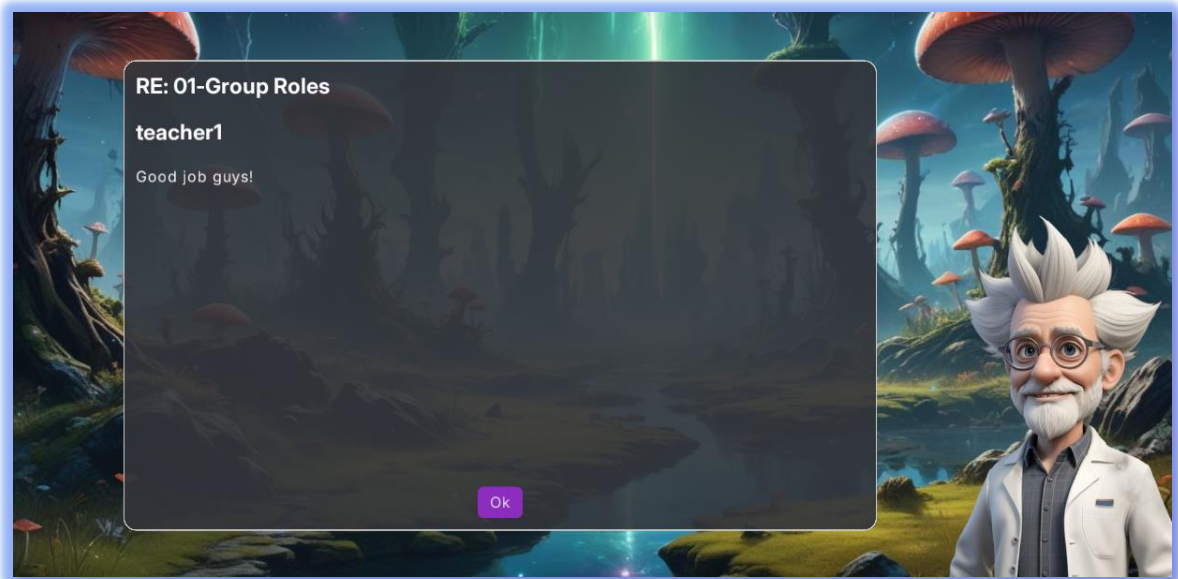

- **Online Tasks:** These tasks are automatically scored by the platform's system.
- **Offline Tasks:** These tasks are scored by the teacher and include uploading a file to the system or completing an in-person/in-class activity.
- **International Tasks:** Tasks tagged with the "International" tag, are enabling the invitation of other groups, allowing classes to cooperate in order to finish the task. Your teacher will invite another group and allow you to collaborate in order to complete the task.

**Important: Always read each task's instructions and contact your teacher if you need more information.**

When you complete a task that includes an offline part, you will need to wait for your teacher's feedback and approval.

If your answer is accepted by your teacher, you will see their feedback and your next task badge will be unlocked.

If your answer is rejected by your teacher, you will see their feedback and you will need to redo the task.
